ABOUT THE CONFERENCE

Agile Mumbai is Agile Network India's initiative, bringing all the best, most emergent ideas about Agile, and some of the most important global minds working in the field under one roof. It has stood tall as one of the most important platforms for the Agile community in India since its inception in 2019, and has proudly featured some of the most important knowledge-sharing, networking, keynotes and professional interactions for Agile Practitioners, Business Leaders, Executives and Professionals all over.

It now proudly returns for its third successive iteration this year, and provides a platform to enable forward thinking, goal oriented professionals towards building better ideas towards their organizations.

CONFERENCE THEME

The Theme of the Conference is based upon Agile in BFSI (Banking, Financial Services and Insurance).

The Banking, Financial Services and Insurance organizations face fierce competition from disruptive, non-traditional FinTech organizations. However, BFSI organizations need to overcome barriers of their existing processes, structures, and legacy systems in their quest for Agility. In Agile Mumbai 2021, we will address the same, in the context of BFSI organizations about how to;

- Overcome barriers of their existing processes, structures, and legacy systems in quest for agility
- Navigate the complexity, functional silos, and regulations to remain in competition
- Leverage the ecosystem of the native digital players to speed up their innovation and transformation
- Transform digitally with customer at the center to bring rapid innovation to the market
- And much more

PANEL THEME

The Theme for the Panel Discussion is based upon Innovation in BFSI.
